This Practice is committed to maintaining the privacy of your protected health information ("PHI"), which includes information about your health condition and the care and treatment you receive from the Practice. The creation of a record detailing the care and services you receive helps this office to provide you with quality health care. This Notice details how your PHI may be used and disclosed to third parties. This Notice also details your rights regarding your PHI.

CONSENT

The Practice may use and/or disclose your PHI provided that it first obtains a valid Consent signed by you. The Consent will allow the Practice to use and/or disclose your PHI for the purposes of:

Treatment – In order to provide you with the health care you require, the Practice will provide your PHI to those health care professionals, whether on the Practice's staff or not, directly involved in your care so that they may understand your health condition and needs. For example, the Practice may need to provide the Medicare program with information about health care services that you received from the Practice so that the Practice can be properly reimbursed. The Practice may also need to tell your insurance plan about treatment you are going to receive so that it can determine whether or not it will cover the treatment expense.

Health Care Operations – In order for the Practice to operate in accordance with applicable law and insurance requirements and in order for the Practice to continue to provide quality and efficient care, it may be necessary for the Practice to compile, use and/or disclose your PHI. For example, the Practice may use your PHI in order to evaluate the performance of the Practice's personnel in providing care to you.
